

In case of emergency

To call out Dartmoor Rescue dial 999

Emergency whistle/torch flash is 6 blasts/flashes every minute. A rescue team shall answer by 3 blasts/flashes.

Once rescue has been requested find shelter nearby and wait in the location you gave to the rescuers.

Before running the river inform someone where you are going and your return time. Make sure to let them know you are off the river.

Rescues take a long time. It could get very cold & dark. Carry appropriate kit.
